Dear Reg:

Re Oak Island

I mentioned to you the last time I was in your office that a gentleman from Texas was interested in going to work on Oak Island. His name is George J. Greene.

Mr. Greene arrived in Halifax the first of this week and is getting under way to work probably next week.

He is making some research endeavoring to find out what he can, particularly looking for some old maps which he understood were still in existence somewhere. I do not know whether you have anything or not, but I did tell him that you had considerable information which had been accumulated by the late Mr. Blair, and that as you were interested, you might be able to give him some information.

I have therefore taken the liberty of advising him to get in touch with you on your return. Hope you will be able to find a little time to discuss matters with him.

I am quite impressed with Mr. Greene's ability and integrity and I believe he will make an honest-to-goodness attempt to locate the treasure, and have no doubt whatever that if it is located, he will be able to recover it without too much difficulty. So any assistance or information you are in a position to give him, will be greatly appreciated.

Yours truly

M. R. CHAPPELL
